“Our ‘HyperMotion Technology’ was developed to enhance the gameplay experience from the FIFA franchise’s very first game, FIFA 13, to this very FIFA, and we are excited to be bringing it to FIFA 22,” said Christine Chan, Global Brand Manager for EA SPORTS. “One of the benefits of our ‘HyperMotion Technology’ is that when you play FIFA 22 with your friends on PlayStation 4 or Xbox One, the people on-screen move with you, and it’s incredible.” FIFA 22 will be available on PlayStation 4 and Xbox One, and will be also be available on PC, Nintendo Switch, iOS and Android. For more information on the new EA SPORTS FIFA, please visit: ea.com/fifa. Q: How can I get the last 24 hours from a specific time? I have to write a function that returns the last 24 hours from a specific time. How can I do this? A: This method is fully implemented in the Date class, but it has been obsolete for quite some time. Today, the standard method would be to use the Calendar and SimpleDateFormat classes in conjunction, as follows: `Calendar c = Calendar.getInstance(); c.setTime(new Date()); c.set(Calendar.HOUR_OF_DAY, 23); c.set(Calendar.MINUTE, 0); c.set(Calendar.SECOND, 0); c.set(Calendar.MILLISECOND, 0); c.add(Calendar.DATE, -1); SimpleDateFormat sdf = new SimpleDateFormat("HH:mm:ss"); String formatted = sdf.format(c.getTime());` If you are dealing with strings of arbitrary length of time (as opposed to times that are measured as the number of hours since epoch, e.g., the number of milliseconds since midnight, January 1, 1970), you can do the same using the three-arg form of the SimpleDateFormat constructor (see the javadoc): `SimpleDateFormat sdf = new SimpleDateFormat("HH:mm:ss"); sdf.setLenient(false); String formatted = sdf.format(c.getTime());` A: Use `Date.getTime()` if you want to count milliseconds

Fifa 22 [Updated]

FIFA is a popular football simulation game, first launched in August 2005. Since then, FIFA has been the number one football video game in the world for every year from 2006 to 2016, and continues to be the top-selling sports video game in the world. Where do the names come from? Naming the game after the sport FIFA is not meant to be a reference to real-world players or officials (FIFA is not named after a real player, official or coach). It's a codename that was originally intended for a video game licence that was never produced. It's just an off-shoot of EA Sports' long-running franchise FIFA (known as Pro Evolution Soccer outside of Europe). Do I need FIFA 21? The award-winning game FIFA 20 is released at the start of 2017. In its first year, FIFA 20 set the record for fastest-selling new sports title of all time in the UK, beating both Super Mario Run and Pokemon GO! In the last year alone, FIFA 20 had over 250 million players and the FIFA license continues to be the top-selling sports video game in the world. The game is available now for the PlayStation®4, Xbox One and PC/Mac. What can I do in FIFA? The world's most famous ball game. Pick your team, line up your best players and, ultimately, dominate FIFA's 19-mode Career Mode. Or take on the other 30 Club Teams, win your first season in Ultimate Team Leagues and dominate FIFA Ultimate Team Seasons and FUT Champions. The game returns with complete FIFA 19 gameplay, including all new Champions, Teams and Ball Skills. If you're a FIFA Ultimate Team fan, add every player you can, download FIFA Ultimate Team Leagues and experience FIFA 19 as you've never played it before. I need to play online, how do I join the season? You're ready to play with your friends and face real players around the world. This year FIFA is introducing a new network mode, which lets you do just that. Sign up and play with your favourite Club and take on the world in four new online modes (Quadrangular, Squad Battles, New Arena and Unranked) and become the world's greatest team, player or coach. This is also the first FIFA to include a new online Seasons experience, with a winter break, a calendar-based transfer market and rewards for bc9d6d6daa
