□&Kenya's PSCs welcome ZEC to come clean on latest dirty money loot. □8 Source: Daily Nation. 71706087 The Kenyan Electoral Commission (KEC) has called on the country's anti-corruption commission (ACC) to look into a report of New Vision that the Anti-Corruption Commission (ACC) is the â€[Early signs of the neurological disease in hyperhomocysteinemia in patients with coronary atherosclerosis]. Hyperhomocysteinemia is accompanied by changes in the blood and biliary system, the presence of some agents of immunity, and by a variety of vascular and nervous disorders. To assess the frequency of early signs of stroke in patients with hyperhomocysteinemia. Studies were carried out in 165 patients with hyperhomocysteinemia (aged 33-71 years) and coronary atherosclerosis (166 patients of the control group). Stroke was registered in the course of the disease in 22 (13.3%) and 21 (12.7%) subjects of the control and the study group, respectively. Men of the control and the study group was 15.4 times more frequently as compared with that in the control group. Frequent strokes in the month preceding clinical manifestation of stroke in the patients of the control group. The results of the research suggest that hyperhomocysteinemia is a risk factor for the occurrence of stroke in patients with coronary atherosclerosis. Men, patients aged 48-71 years, and those with a total cholesterol level of more than 6.4 mmol/l should undergo early treatment for hypocholesterolemia.
